## Front-end developer

✉ mainguyency@gmail.com    ☎ 0395067721    📅 09/21/1999    📍 Thuan Thanh district, Bac Ninh

### SUMMARY

I'm a Front-end developer with 2+ years of experience in Web and Mobile development. I have almost one year of experience building mobile financial applications with React Native and 1+ year of experience building management systems using the company's low-code platform. I with my team successfully deployed HDBank's Back Office system on time and received high praise.

With my knowledge and skills, I'm confident that my abilities will contribute to the success of many projects company. By working collaboratively with the team, I can ensure we deliver high-quality results that meet the needs of both the company and the client.

### SKILLS

|                                                                                                                                                                                              |                                                                                                                                                                                                                                                                  |
